This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

LIST OF REFERENCES

ON THE

MONROE DOCTRINE

COMPILED UNDER THE DIRECTION OF

HERMAN H. B. MEYER

CHIEF BIBLIOGRAPHER

WASHINGTON
GOVERNMENT PRINTING OFFICE
1919

L. C. card, 19-26003

NOV 20 1919

PREFATORY NOTE

A subject of such importance as the Monroe doctrine has naturally given rise to a voluminous literature, and at the first touch it seemed as if a classification were desirable, but this turned out not to be the case. To present the material in a satisfactory classified form involved a duplication of entries to an unusual degree, and as the volume of literature was great in itself, a straight alphabetical arrangement for books and pamphlets and a chronological arrangement for periodical articles was adopted. The more important speeches, etc., which have appeared in the Congressional Record are grouped at the end in alphabetical order of authors. Reliance is placed on an analytical index to bring out the minuter phases of the subject.

The compiler of such a list as the present must withhold himself from breaking through the natural barriers of the subject into closely related topics—in connection with the Monroe doctrine, for example, diplomacy and international law—otherwise he will open the way to a flood of literature which would obscure that definiteness of outline which is desirable even in a bibliography. Such closely related literature may be approached through some of the bibliographies mentioned on pages 5–6, especially items 4 and 5.

Those desiring a comprehensive treatment of the whole subject will find it in Professor Hart's "The Monroe doctrine; an interpretation" (item 138 of this list). Of hardly less interest, but somewhat briefer, is the English book, Reddaway's "The Monroe doctrine" (item 239), a scholarly work. Mention should also be made of the books by Edgington (103), Hull (151), Latané (172), McMaster (187), Mahan (189), and Sherrill (272). Bingham's "The Monroe doctrine, an obsolete shibboleth" (47) is, as its title indicates, severely critical and presents objections raised by Latin American countries. Pollock's essay on "The Monroe doctrine" (234) has been reprinted as Senate doc. 7 (58th Con., 1st sess.). Two collections of essays published by the American Academy of Political and Social Science (19 and 20) include some very valuable studies, and Miss Phelps' "Selected articles on the Monroe doctrine" (226) offers a presentation of significant magazine articles.

10-3796† JX1425.A3 1882
Serial no.1991

"Thus the doctrine of non-intervention by European powers in American affairs arose from complications in South America, and was announced by Mr. Monroe on the suggestion of the official representative of Great Britain.

"The doctrine so formulated by Monroe and expounded by Adams has since remained a cardinal principle of our continental policy. In several notable instances, especially in the case of the French attempt to set up imperial authority in Mexico, it guided our political action, and it is to-day firmly imbedded in the American heart."

325 **U. S.** *Dept. of state.* Report of the Secretary of state [F. T. Frelinghuysen] and accompanying papers relating to the Clayton-Bulwer treaty between the United States and Great Britain, signed April 19, 1850. Dec. 19, 1883.
